

Casing and Netting specialists unite to bring you the best of both worlds

Ennio International, who has been providing quality netting and casing solutions to the meat and poultry industry for over 30 years, now brings you Viskase, a leading global supplier of casing solutions for 80 years, combining over a Century of experience.

The companies maintain a parallel, both being specialists in their fields and with their commitment to meeting customer needs along with a drive for world class, innovative quality design and technology. Viskase began as the inventor of cellulosic casings, with Ennio International designing and patenting many products, including Ennio Netted Casing ^{TM PATENTED}, a netting and casing in one, each company offering products unique in the marketplace at their inception.

Ennio Australia will now provide meat processors with an even more extensive range of quality netting and casing products by adding the Viskase range of Cellulose, Smoked and Clear Fibrous as well as Barrier Polyamide Casings. “The partnership with Viskase is in line with our “new innovations strategy” to bring new designs and products of world class standard to our Australian customers”, says Managing Director, Ennio Mercuri.

Viskase is based in Chicago USA and is well known for their innovation over the last 80 years, from their creation of a replacement for animal intestine casings; the NOJAXTM Cellulose Casings, through to their development of E-Z Peel[®] Fibrous Casings and VISCOATTM Colour Transfer and Barrier Polyamide Casings. They manage a global sales and distribution network that reaches virtually every country of the world, with manufacturing and distribution facilities in North America, South America and Europe.

Ennio International is based in South Australia and specialises in the manufacture and supply of high-quality, innovative netting and casing solutions for the meat and poultry industry. With 50 years of knitting expertise, Ennio has a history of producing patented unique products. They are renowned for designing, customising and sourcing new products to suit individual customer needs to provide a world-class product range. With offices and warehousing in the USA and Canada, Ennio exports to every continent.

Ennio Australia can now provide a wider and more varied range of quality meat packaging products from Elastic Nettings, Knitted Casings, Netted Casings, Fibrous and Pre-smoked Fibrous, Cellulose Casings, Barrier Polymide and Plant-based Casings, through to net loading and stuffing equipment; everything you’ll need for your competitive edge.
