ennio Netted Edible Collagen - now in Twin Tube System

Ennio gives you the ability and flexibility to tailor your own all-in-one netting and edible casing product to suit your needs.

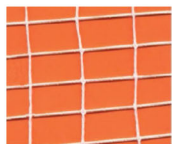

Product Benefits

- Twin tube system - up to 50m material available per set, less downtime and fewer changes
- Single application of netting & casing, fast production rates
- No wastage
- Collagen becomes part of the meat
- Excellent elastic pressure = strong indentation pattern and easy peel
- Available in a wide range : Nettings, colours, sizes and patterns

Pattern Options : Large and Small Shapes

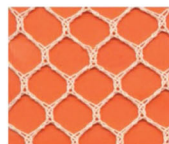

Square

Rectangular

Diamond

Hexagonal
